9 October 2026

[AMDA Nepal Medical Relief #6: Rasuwa- Bhote Koshi Flood in Nepal]

AMDA Nepal medical relief team initiated and provided medical services to 39 local people of Uttargaya Rural Municipality through Bogitar Community Health Unit, similar to previous days. At approximately 1:00 PM, Professor Dr. Rohit Pokharel, President of AMDA Nepal, visited the health camp site to observe the ongoing medical services and interact with the team. He personally attended to about 20 patients, directly contributing to healthcare services for the local community. As 9 October was the final day of the planned medical health camp, the team completed its clinical activities and formally concluded the camp at Bogitar Community Health Unit.

After the health camp, the team, accompanied by the President of AMDA Nepal, travelled to Jibjibe Hospital, met the medical team, discussed healthcare services and challenges in the region.

The team plans to meet and greet the Chairperson (अध्यक्ष) of Uttargaya Rural Municipality tomorrow to discuss the health camp and further coordination with the local government. After the meeting, the team plans to depart for Kathmandu, concluding the field visit.
